

Team competition

A different quiz

www.aktivitetsteamet.se

The activity begins with a simple task to separate the groups. Then the groups set out on the track, which consists of ten different issues. The questions are of different character as general education, guess what / who is in the picture, squeeze and touch things. When all teams are back they do yet another activity before correction of the results and a prize-ceremony.

By coming up on one of the first places a number of additional points are earned.
