

BRIDGE BUILDING

A challenging task that gives priority to the construction skills of the participants. The challenge is to build a six meters long bridge on which a person can walk on without tearing it down or having it touch the ground. The teams are provided wood, masonite, rope, nails and tools. With a maximum of one hour, they then plan and build their bridge. The final test / race can be made either over water or on land.

5 - 7 persons per team.
