

COMPANY CHAMPION

Do you want to know who is the champion in your company. Our version is a fun and challenging activity where lots of talents sets to the test. We have a system where every person in the winning team gets a game chips that is personal. After each activity we divide you in new teams. It is therefore important to be a good team player to win. In most activities all participate actively but in some activities you must appoint someone to perform for. Ex. a climbing or test of strength. This means that at the end of the day, the participants with the most game chips will be in a final where the champion will be crowned.
