

# FAREAST 28

Challenge each other by running a race with Fareast 28 which are fast and easy to handle sailboats that sails across the water. This fast-paced and delightful activity fits both large and small groups. At larger groups, those who are waiting for their turn will be able to see their colleagues from the nearby bridges. The fastest boats at the different races will finally go to the final! Of course we have a rescue boat in the water if something should happen. In the end there will be celebrations on the bridge with an award ceremony to the final winners of the company!

Sailor jacket, trousers and life jacket are included.

5 persons + skipper per boat.
