

KAYAKING

Few things will make you come as close to nature as kayaking.

We paddle our stable two-seated kayaks in the archipelago or in Lake Mälaren. We select the route depending the wind, the weather and the group's ability. Our instructors are highly experienced and knowledgeable to ensure that safety is always at a very high level while you get a lot of great tech tips. Also, they know where the beautiful cliffs and beaches are so you can go ashore and take a coffee break.
