

# Mousetrap

Is a very fun and exiting activity that really gives your team a challenge. The group is divided into smaller teams and the task for each team is to make a part of a gigantic mouse trap. All teams are given different kinds of building materials and also some unique and somewhat peculiar things that must be added to their construction. We will manage a workshop where additional tools and materials is handed out. The mousetrap will form a kind of a domino game where the first team will trigger the second team and so on until the last teams construction hopefully catches the mouse. This of course demands a very high degree of cooperation, communication, creativity and innovation from all the teams.

Mousetrap can be arranged both indoors and outdoors.

We recommend 4-6 persons per team.

## FACT

Pris: 3200 SEK/ team

Minimiprice: 8500 SEK

Participants: Unlimited

Recomended time: 1,5 hours

Prices are valued excluding Swedish VAT
