

SOAPBOX CAR CONSTRUCTION

A childhood dream comes true. The group will be divided into teams of four to six people each. Within a given time, the teams shall design and build their own soapbox car. The team must work together, share duties and be creative to get the best results. When the construction period has expired, each team must present their car for prying competitors. Directly after the Motor Show the cars are brought to a race track where it is determined which team has built the fastest car.

4 - 6 persons per team.
