Minimiprice: 20.000 SEK

Participants: 5 - 40 persons

Recomended time: 3 hours

Prices are valued excluding Swedish VAT

COOPERATION

CREATIVE

INGENIOUS

CHALLENGE

The main ambitions of our teambuilding programs are for the participants to get know each other, have fun and work together while creating learnings about teamwork which they can apply on everyday work and organization.

The team will be challenged with practical problem-solving exercises. In order to succeed they must cooperate in an effective way.

Each exercise will be followed up with feedback, focusing on how the team went about planning, communicating, defining goals etc.

Our programs are always customized to the needs of our clients and they can vary in time from 3 hours to many days.

A half day program usually contains 3- 5 exercises with feed- back and a summary in the end.
